76” W x 161” D x 76” T (Nominal)

CURING OVENS MADE FOR EVERYONE

Whether you’re application calls for cerakote, powder coat or something different, these ovens can provide you the curing capabilities you need. With customers across both the US and the world, there’s a good chance we already know what you need for your given application, for you to obtain the best results. All of our products are designed and built by hand in the small farm town of Morrisonville, IL.

Intuitive Controls

Our ovens are simple to use and operate, which is ideal for new or unexperienced users. Each one of our ovens comes with a PID controller that offers a sleak LED display and responsive rubber buttons for accurate controls and readings. Setting timer and temperature values can all be done with a single button.
